'She told me an anecdote about a boy her age, who at the beginning of the course said to her that he was not going to like VacStuds, that it was not his thing. She talked a lot with him during the first days and she said to him "this place has something magical, wait and see". The last day, this boy was crying, and said "you were right, it's magical". I find that such a beautiful story. I tell her, if I can send her again next year, she should go for a mentor role, that's in a way what she did with this boy!'
